		Expected outcome	Upon successful completion of the B.A. UG-ODL Programme, learners will be able to: Apply acquired knowledge to analyze and address complex socio-political issues effectively. Identify and critically examine societal challenges at national and international levels, while upholding values of rights, duties, and community welfare. Utilize research-based knowledge and methodologies to produce reliable outcomes, develop socio-scientific research skills, and apply them in both academic and practical contexts. Interpret and evaluate social and political problems, contributing to innovative and sustainable solutions for the nation's development. Demonstrate understanding of societal and environmental contexts, emphasizing the importance of sustainable development and social responsibility. Uphold and apply professional and ethical principles relevant to their chosen disciplines and careers. Exhibit leadership qualities and the ability to take initiative in social, academic, and professional settings. Communicate effectively across social, cultural, national, and international platforms, demonstrating clarity, confidence, and interpersonal competence. Develop professional and entrepreneurial skills, fostering self-employability and contributing to the social sector. Recognize the importance of independent and lifelong learning to adapt to ongoing social, political, and global changes.

Learning Management System (LMS)

Counselling Process Mode of Counselling :- Online Brief describe the provision in LMS to be used by HEI :- The TCS iON Learning Management System (LMS) is a cloud-based digital platform designed to support Higher Education Institutions (HEIs) in delivering and managing teaching-learning processes effectively. It provides comprehensive provisions such as course and content management, online assessments, collaboration tools, and analytics dashboards. Faculty can create structured courses, upload multimedia content, and design assignments or quizzes, while students can access materials anytime and interact through discussion forums and communities. The system also includes features for tracking learner progress, generating performance analytics, sending notifications, and integrating live sessions through video-conferencing tools. For HEIs, TCS iON LMS enhances flexibility, engagement, and efficiency by providing a unified, scalable, and secure platform for academic delivery and institutional administration. Briefly write how the Learning Management System (LMS) will ensure the following: (provide a demo link, if available) :-	
Assessment mechanism	The assessment mechanism in TCS iON LMS is a comprehensive and flexible system that supports continuous and summative evaluation of learners. It enables faculty to design, schedule, and deliver a wide range of assessments such as quizzes, assignments, tests, and exams in both online and blended modes. The platform supports multiple question formats—objective, descriptive, case-based, and multimedia-enabled questions—and allows the creation of a question bank mapped to learning outcomes and difficulty levels. The system ensures fairness and security through randomized question papers, time-bound tests, and proctoring options. Detailed analytics and performance dashboards help instructors track learner progress, identify strengths and weaknesses, and plan remedial actions. Overall, TCS iON's assessment mechanism promotes continuous learning, transparency, and data-driven evaluation in higher education. The assessment and result management mechanism in TCS iON LMS efficiently supports the entire process of end-semester evaluations, result preparation, and computation of SGPA (Semester Grade Point Average) and CGPA (Cumulative Grade Point Average) in line with institutional regulations.
